Summer Reflection & Quotes Continue...

Through the recreation and leisure made possible by travel, people are restored and renewed, body and spirit. They return home to family and work with a new perspective and enthusiasm for life. - **Pope St John Paul II**

In today's often frenetic and competitive society, in which the logic of production and profit prevail, often at the expense of the individual, it is still necessary for everyone to be able to enjoy adequate periods of rest, in which to regain their energy and at the same time restore the right inner balance. Vacations, holidays, must be wisely used in order to benefit the individual and the family through contact with nature, tranquillity, the opportunity to foster greater family harmony, good reading and health recreational activities; above all, through the possibility of spending more time in prayer, in contemplation and in listening to God. - **Pope St John Paul II**
